

# Quantitative Research Proposal Guide

---

## 1. Title

A clear and concise statement of your proposed research topic.

## 2. Introduction

- Background of the study
- Statement of the problem
- Significance of the study
- Scope and limitations

## 3. Review of Related Literature

- Summary of relevant previous studies
- Current research gaps

## 4. Research Questions / Hypotheses

- Main and sub-research questions
- Hypotheses (if applicable)

## 5. Methodology

- Research design (e.g., descriptive, experimental, correlational)
- Population & sample
- Sampling technique
- Data collection methods/instruments
- Data analysis procedures

## 6. Ethical Considerations

- Confidentiality and informed consent
- Potential risks and how they are addressed

## 7. Timeline

- Estimated schedule for each research phase

## 8. References

- List of sources cited in proposal (in proper format)
