

Social Science Study Proposal Framework

1. Title

[Insert study title]

2. Introduction and Background

[Provide context, rationale, and significance of the study]

3. Research Problem and Objectives

Research Problem: [State the core issue/question]

Research Objectives:

- [Objective 1]
- [Objective 2]
- [Objective 3]

4. Literature Review

[Summarize key theories and prior research relevant to your study]

5. Theoretical Framework

[Describe the theories guiding your research]

6. Methodology

1. **Research Design:** [e.g., qualitative/quantitative/mixed-methods]
2. **Population and Sampling:** [Describe target population, sample size, sampling technique]
3. **Data Collection Methods:** [e.g., surveys, interviews, observation]
4. **Data Analysis:** [Describe analysis techniques]
5. **Ethical Considerations:** [Explain ethical protocols]

7. Expected Outcomes

[Anticipated results or contributions]

8. Timeline

[Outline phases and estimated time for each phase]

9. References

[List of key references in a chosen citation style]
